Helga wanted to marry Fritz von Wedel, former captain in the crack Lueneburg dragoons, who was a well known gentleman rider, but hermother objected so Helga left home and went to live in a hotel and took a job as stenographer for a leading attorney. Police noticed that she was living in great style although she was not receiving an allowance from home and earned only a small pittance at her work. She was caught as she was offering to sell a Berlin jeweler a diamond tiara, part of the missing jewels.

Une of the finest French Provincial antiques in America

EW ANTIQUES have had as distinguished a setting in any American collection as this rare old sideboard had for many years in the Warren collection at 1041 Fifth Avenue, New York.

In the catalog of the Whitney sale is a picture of the great hall housing this collection, the walls hung with Parisian tapestries depicting the story of Theseus and Ariadne, a fireplace of Verona marble from an Italian castle and extravagantly carved columns from a sixteenth century palazzo being other items in an ensemble which represented a lifetime of travel and intelligent selection.

Prominent in the group stood this sturdy example of French cabinetry, which has been purchased by Colby's and brought to Chicago as a feature of a fascinating exhibition of Provincial furniture. It is offered, unrestored and with a fine patine, at \$575. We invite you to see it.

CHURCH AND STATE.

The protest against politics in the church is gaining force. The Episcopal bishop of the Washington, D. C., diocese spoke with force against it the other day. The new moderator of the general assembly of the Presbyterians, Dr. McAfee, in his address of acceptance, said: "It is not the church's business to make laws, nor directly to participate in their making. Likewise, it is not our business to enforce laws, nor to enter into their enforcement. It is our part to spread the spirit of observance of all law," An influential group of Chicago clergymen, of which Dr. Shailer Mathews is a leader, has made the same pronouncement, and is to hold public meetings in the city for the purpose of stimulating the civic conscience on behalf of good government and better civic standards. It expressly eschews political activity in the familiar form of supporting favored candidates and attacking unfavored candiof the church, which is to reach the con-

GETTING FRESH FOODS OLD.

Some men who cannot gather their food from their own premises and eat it within a few minutes can still provide their families with vegetables and fruits ripened on the vine. However, the great majority of city residents must eatthings that are picked green and artificially ripened. Such foods spoil too rapidly and shipping and marketing a product that was ripe when it was picked is not feasible.

Bananas are as green as grass in appearance when they leave Panama for the United States. The tendency to ripen and then spoil rapidly is so great that it must be restrained by refrigeration. On the other hand, tomatoes and many other vegetables, most fruits and some berries must be helped to ripen. An old method was called sweating. In this method the fruit or vegetable was kept in a room where the temperature sind humidity were right until it was ready for display. Recently the method which has been displacing the older ones is that of exposure to dilute ethylene gas. This gas causes the development of the color by which ripeness is generally judged. The green of the orange skin turns to a golden yellow, tomatoes become a deep red. The color changes are perfect. They are exactly those caused by sunlight as the fruit hangs on the tree, vine, or stalk.

as the fruit hangs on the tree, vine, or stalk.

However, change in color is not all the process of ripening. How about flavor, odor, consistency, acidity, sugar content, pectin, and similar substances? Are foods ripened artificially poisonous or harmful? Are they wholesome? These questions have all been investigated and the laboratory work is still going on. Nothing poisonous or harmful has been found in them. Many are regarded as wholesome. However, they are not up

quite the top amount of pectin.

To sum it all up in the words of the stockman, "These goods do not top the market." However, foods ripened with ethylene gas canked higher than those picked a little green and ripened by

When I get time to roam from hor I'll travel to the Occident, Set forth across that gleaming sea That stretches to the Orient; There where the flowers, through golden hos Back in the sun and drink the showers, Where temples ancient line the road, Hark back to past régimes; Where olden types and antique modes Survive the years it seems; Colors fantastic, verdure green, With almond orchards in between,

And citizens gymnastic.

The people there in far Japan
Have temples as in old Mayan,

WHY YOUR CHICAGO TRIBUNE IS THE

VOICE OF THE CENTRAL STATES

Side and the second to the Albertail

e Repeat-

- The Tribune is not involved in any of the great rackets built on enormous U. S. government appropriations for exploiting real estate, oil, mineral and forest resources;
 - Tribune political writers are not on the public payrolls. Tribune sports scribes do not accept presents or "expenses" from sport promoters;
 - Its news and editorials cannot be bought by public service companies; it will not be bullied by bigots nor silenced by corruption in high places;
- Be Fighting in the courts for honest government, it has emerged victorious, "bloody but unbowed."

A NEW SIX AT A PRICE WITHIN THE REACH OF MILLIONS

SATURDAY

On this new automobile has been concentrated all of Buick's seasoned manufacturing experience gained through its long leadership in fine car building. The Marquette has the distinction you expect in the smartest of modern cars, with bodies by Fisher, and the added value you

anticipate in a Buick-built product. But foremost among all its fine qualities is, a type of performance never before achieved in any car of comparable price. See the Margoette when it goes on display this coming Saturday.

Iowa City, Ia., May 25.—[Special.]
—Ever since the announcement last
Saturday night that the faculty committee of the Big Ten had expelled
lows from the conference Iowa students and alumni have been asking:
"What are the Big Ten's charges?"
After an eight hour session today,
the three men who could answer that
question met with newspaper men tonight. The trio were President Jessup,
Edward Lauer, newly appointed director of athletics, and Maj. Griffith,
so-called boss of the Big Ten.

South Winning Out as Cotton Mill Center

BY SCRUTATOR.

BY SCRUTATOR.

The senate committee on manufactures voted on Monday to conduct for itself an investigation of the recently settled textile striks in the south, rather than leave the matter to the federal trade commission.

In recent years the south has become the center of cotton milling as of cotton growing. It has definitely outdistanced New England. The central states, the industrialized sections about the great lakes, have made little progress in attracting this type of manufacture. Although there are other apparent advantages, it is almost beyond question the low labor costs and the favorable labor laws in the south that have governed the change in location.

Behind the decrease.

the south that have governed the change in location.

Behind the dry announcement that a textile strike is to be investigated lies a story that has its elements of romance as well as a bearing on the industrial progress of England, New England and the less fertile portions of the southern states. Cotton manufacture was the first child of the modern mechanized social structure. of the southern states. Cotton manufacture was the first child of the modern mechanized social structure. It grew up in England under capitalists who had accepted the idea that the proper way to make profits was to produce all you could as cheaply as possible and to sell the product happy to work for small wages. They were a possible and to sell the product happy to work for small wages. They had never known living as good as your own workers; to export. After a century and a half it still is an indigate the long hours and the comparatively of agriculture affected by the existing dustry that thrives best on long hours.

For these reasons it is unlikely that to command wage scales like those in any considerable manufacture can be the north, but until then the cotton developed in this section for many mills will stay in the south." years. Along this line it may be well to give some views of William R. Dated May 1, 1929

Due May 1, 1944

Mr. Marshall E. Sampsell, President of the Company, summarizes as follows his letter to us: finess: The Associated Telephone Utilities Company, incorporated in Delaware in 1926, will upon completion of this financing, control through stock ownership or otherwise, groups of telephone properties serving a total population in excess of 1,800,000 in California, Illinois, Wisconsin, Michigan, New York, Pennsylvania, Texas, New Mexico and Kansas. These properties include 205,919 stations in 814 communities and constitute one of the largest groups of independent telephone properties in the United States. Through agreements with the Bell Telephone Companies, the long distance toll lines of the Bell System are available to all subscribers thereby furnishing full toll service to all points reached by the National System. Of the total gross operating revenues, approximately 20% is derived from toll business.

Earnings: The Consolidated earnings (including the earnings of all properties to be presently controlled) for the years ended December 31, 1927, December 31, 1928 and March 31, 1929, after giving effect to present financing, were as follows:

Net earnings before depreciation
Operating companies' annual bond interest and preferred
stock dividend requirements
Minority stock interest \$2,789,623.77 \$3,199,908.02 \$3,287,206.01 Balance

Consolidated net earnings as above set forth, for the year ended March 31, 1929 were more the four times the interest requirements on all the outstanding debentures of the Company (inclu

Prior Preferred Stock, and 335,655 shares of no par value Common Stock. The replacement value of the operating properties, less depreciation, is substantially in excess of all funded indebtedness and preferred stocks of the operating companies and all funded indebtedness and Prior Preferred Stock of this Company. The total funded debt of the Associated Telephone Utilities Company, including this issue, is \$10,993,000, which is followed by junior securities having a present market value, based on recent quotations, in excess of \$13,000,000.

Conversion: Each \$1,000 debenture, with all unmatured coupons attached, is convertible at the holder's option into Common Stock on the following terms: To and including May 1, 1932, into 33 shares of Common Stock; and thereafter to and including May 1, 1935, into 30 shares of Common Stock. Each \$500 debenture is likewise convertible into Common Stock on the same proportionate basis. After May 1, 1935,

For the year ended March 31, 1929, net earnings available for amortization, depreciation and Common Stock dividends were \$1,461,416.35, equal to \$4.35 per share on the Common Stock into which these debentures are convertible. After the deduction of depreciation charges, as adjusted to the management's present policy, the balance was equivalent to \$2.17 per share. Dividends are being paid at the annual rate of \$1.00 in cash and 1/50 of a share of Common Stock. The Common Stock has a book value of \$34 per share and is currently quoted on the Chicago Stock Exchange at \$27 per share. Application will be made to list the Common Stock on the New York Stock Exchange.

General Gas and Electric Corporation

The Largest Earth Dam in the World

The largest earth dam in the world is being built on the Saluda River near Columbia, South Carolina, by the General Gas and Electric properties.

Construction was begun two years ago, and when completed in the Fall of 1930, this development will give South Carolina one of the largest and most dependable sources of hydro-electric power in the world.

The dam will be 208 feet high; one-quarter of a mile thick at its base and 11/2 miles long.

The 914,000 carloads of earth fill required in the construction of the dam would make a train reaching from New York to San Francisco and back to Salt Lake City.

An 18-foot highway will run across the top of the dam.

78 square miles will be covered by the lake, which will be 41 miles long and 14 miles wide and have a shore line of 520 miles.

The tunnel temporarily diverting the river would accommodate a double track railway, being about 70% wider than either of The Holland Vehicular Tunnels connecting New York and New Jersey.

35 sawmills are clearing the lumber from the territory to be flooded.

Power to Be Generated Already Sold

Before ground was broken the entire initial annual output of 300,000,000 K. W. H. had been sold under long term contracts.

In addition to developing the Saluda River project the General Gas and Electric properties serve the territory surrounding Columbia. South Carolina, and the prosperous citrus growing area of Florida.

The General Gas and Electric Corporation, the listed stocks of which are widely held and traded in, with its large holdings, exceeding \$100,000,000 in value, in the securities of widely diversified public utility enterprises, including the Associated Gas and Electric System and other affiliated enterprises, and with other possible and probable acquisitions, will share largely in the continued growth of the public utility industry.

Geared to MODERN BUSINESS

In the middle sixties, when the First National Bank of Chicago was starting on its career, stagecoaches were still jogging over the planked approaches to the city. The telephone was not yet invented, and the telegraph had little general use. Passengers traveled by rail between New York and Chicago at a pace now considered too slow for freight.

Gradually the rhythm of trade has quickened. The present is an age of speed. The aeroplane, the radio, fast motor trucks and buses, faster automobiles-aids to swift communication and the rapid movement of goods-all have their counterpart in the highspeed tools and large-scale processes of modern industry.

With all the acceleration of business activity, this bank has kept steady pace. Its official staff is composed of men long experienced in the solution of the financial problems of business. Their specialized knowledge, together with broad facilities for the rapid assemblage of facts, enables them to make the accurate, quick decisions which modern business demands and which only trained men are competent to render.

We invite you to come in and talk over your banking and business problems with our officers personally. You will find them helpful and responsive, and you will enjoy the friendly, informal atmosphere that pervades every department of this bank.

U.S. Per Capita Consumption of MILK

Milk-the Basic Food-Growing in Popularity and Production Helps "Consolidated's" Success

> MILK is the best known and most important food used by the human race. Yet, despite its staple nature, milk is growing in popularity each year, due to the public's greater appreciation of its food value and to the increasing consumption of butter, cheese and ice cream. Total production of milk in the U. S. has grown from about 10.5 billion gallons in 1920 to about 14.3 billion gallons in 1927—a gain of nearly 36% in 7 years. All dairy products must be kept cold until con-sumed. Hence growth in use of these products means growth to the ice business. It also means that ice, ice cream, dairy products, and cold storage form a group of industries ideally suited to economical group operation.

The Consolidated Service Co. Groups "Cold Products"

Located in a section of high prevailing tempera-tures, growing population and especially favorable public attitude, this Company has made a conspicuous success in group operation of "cold products" industries. We recommend its stocks.

A 36-page illustrated booklet containing an interesting account of this group of industries and of the Company's properties will be sent you on request. No obligation. Ask for Booklet C-4.

THE importance of air-craft in long distance transportation is increasing every year. At the Municipal Airport, Sixty-third Street and Cicero Avenue, planes from every section of the country arrive and depart daily.

For speed the airplane is unsurpassed.

In local transportation, however, the street car continues to hold first place. Riding on the Chicago Surface Lines has shown a consistent and substantial growth every year for the past decade. There has been an increase of 10,000,000 rides during the first quarter of this year as compared with the same period last year.

The street car provides a service for which there is no substitute.

Introducing the OLDEST INVESTMENT in its Newest Forms

VERY investor will be interested in a Folder, just prepared, which describes the newest forms of the oldest known investment, as developed by the House of Greenebaum.

These new forms of investments meet the demands of a large majority of careful investors, as indicated in a comprehensive nation-wide survey conducted by this Institution.

In addition to being founded on sound values and offering liberal income return, the new investments enable their holders to share in the profits of ownership and obtain increased income through surplus earnings. These investments are based on the extensive experience of the House of Greenebaum-Conservative Investment Specialists Since 1855.

Since 1916 the Louisville Industrial Foundation has devoted its time to the analysis of economic factors affecting production costs, marketing costs and net profits . . . It is a non-profit organization adequately financed ... It has nothing to sell . . . Its sole purpose is to further the growth of Louisville industry and to encourage the location of only those plants to which it can prove tangible and profit-paying advantages.

Send for general, introductory book, "LOUIS. VILLE-Center of American Markets", and special report on the industry in which you are particularly interested. No obligation. No coercion.

"America," and this in spite of the fact that the program was diversified by a newcoming soloist, Gina Pinnera, soprano, and a well known veteran, Efrem Zimbalist, violinist.

But "America," with its bits of quoted American tunes and its lively, noisy, friendly manner, made a tremendous hit. When Mr. Stock swung the Chicago Symphony orchestra into the third movement and fragments of jazz began to sift out of the confusion, more than one pair of Evanstonian shoulders began to feel the urge to sway in rhythmic sympathy, and some of them yielded to the temptation and when the anthem came in at the end and the festival chorus arose and sang the piece, they fairly overwheimed the orchestra.

New York, May 28.—[Special.]—
Speaking English with a marked accent that told of long residence abroad, the former Mathilde McCormick returned to the United States today for the first time since her marriage in April, 1923, to Max Oser., former officer in the Swiss cavairy and proprietor of a riding academy.

Plays, as the absent conductor of this column has often remarked, are scarce. Chicago was without an opening for two weeks until the coming of "Your Uncle Dudley" and "Frankle and Johnnie" last Sunday. It would have been just as well off without "Frankle and Johnnie." It's pretty terrible.

Kegel Says Thousands Rosa Ponselle Sings of School Children in Norma, Delighting Have Heart Disease Audience in London

Heart disease is a common condition among the 435,000 children with defects attending the Chicago schools. Dr. Arnold H. Kegel declared last night. He spoke at a banquet in the Palmer house of 300 members of the executive committee of the La Rabida Jackson Park sanitarium who plan the erection of the hospital for the benefit of children suffering from heart disease. The talk was broadcast over station WJJD.

dandruff nowthis simple way

No

This simple way of treating dandruff has been proved successful by tens of thousands-after complicated methods failed. Simply douse full strength Listerine on the scalp and massage thoroughly. Keep this treatment up systematically. You will be delighted by results. Dandruff is a germ condition which yields to Listerine because

the latter is powerful against germs. Laboratory tests show that full strength Listerine destroys even the stubborn Staphylococcus Aureus (pus) and also kills 200,000,000 of the Bacillus Typhosus (typhoid) germs in 15 seconds. We could not make such a statement unless we were prepared to prove it to the en-tire satisfaction of the medical prosion and the U.S. Government.

"Bee People," by M. W. Morley. For those interested in wild flowers

there are:
"Wild Flowers Every Child Should Know," by Fred W. Stack. \$1.
"The Burgess Flower Book for Children" (containing colored illustrations), by Thornton Burgess. \$3.

For those interested in trees there is:
"Our Trees—How to Know Them,"
by Weed and Emerson. \$3.00.
Then, last but important, are the
many books on gardening for children. There is a great variety of
them. Here are a few:

"When Mother Lets Us Garden (for very little people)," by Frances Dun-can. 11.

"Mary's Garden and How It Grew (for children a little older)," by Fran-ess Duncan. \$1.75.

There are a number of charming English garden books, but they are importations and not easily available, but are to be found in some libraries. I will not list them here.

There are two sets of guides simple enough to be of interest to children.

"The Pocket Garden Library," by Billen Eddy Shaw, contains three small volumes:

INTERESTING

The Co-operative Apartment Does Have the Advantage over the individual home. Take the introom api, with 5 baths, at 896 Lake Shoredr, as an example, the price of this api. is \$62.483, of which \$29.983 is a 15 year lat mortgage, with no prepayments, leaving a cash investment of \$32.500 for the equiy. The monthly interest is \$138.54; the monthly maintenance cost is \$147.16, including taxes, coal, repairs, etc., together with the salaries of eleven men to serve you night and day. The purchaser of this api, also becomes the owner of 780 sq. ft. of the most valuable corner on Lake Shoredr, with a total of 18.175 sq. ft., and a 256 ft. take frontage.

Place your own valuation on this ground and compare these values and maintenance costs with a house in any location which you would consider desirable. May we show you this apt.

LAND OPENING.

For Mr. Rosenwald placed at the disposal of a group of nen who are directors of The Chicago Morris Plan Rank, a fund of \$1.000,000, to be used in this enterprise. The origina rates which we charged were from \$0% to 60% lower than the rates charged by other in Chicago, but we found that the rates could be even lower, and they have been reduced three times. 10day tney are 3% accruing interest and a commussion of: Michigan. 120 ACRE \$35.00 per \$1.000 for 1 year \$65.00 per \$1.000 for 2 years \$90.00 per \$1.000 for 3 years

It is obvious that any thoughtful thrifty home owner in this community who desires second mortages inanc-ing will find our plan well conceived and scientifically constructed. He will also find that our rates are unque-tionably the lowest rates in Chicago. We will be delighted to have you place your problem before us. THE CHICAGO
